

<p style="text-align: center;">In P.E</p> <p>As Athletes, we will be learning throwing and catching skills through the game 'Handball'. They will enhance their throwing and catching skills whilst moving with the ball, for example overarm (high, mid-air and bounce pass), underarm, catching and both and shooting. Children will then focus on strategies such as positioning, defending and attacking to be able to play with a team and against an opposition.</p>	<p style="text-align: center;">In Maths</p> <p>As mathematicians we will be learning about the value of numbers to 20. Children will be partitioning numbers into tens and ones, and making amounts using a variety of counting resources. Children will be creating number bonds, and adding and subtracting numbers up to 20.</p>	<p style="text-align: center;">In English</p> <p>As readers and writers we will be focusing on a narrative text 'A Mouse called Julian by Joe Todd-Stanton. The children will explore settings and empathising with the characters and events. Children will engage with the illustrations throughout the book to explore how to use drawing as an approach to enhance thinking for writing and developing vocabulary. Children will create a picture book based on their own creative story ideas.</p>
<p style="text-align: center;">In D & T</p> <p>As designers we will be exploring sliders and levers and understanding that different mechanisms produce different types of movement. Children will know and use a range of technical vocabulary relevant to the project. Children will design and make a moving picture.</p>	<p>Learning in Year 1, Term 4 & 5</p> <p>Our topic is</p> <p>Amazing Animals</p>	<p style="text-align: center;">In RE</p> <p>We will be thinking about what is special about living with family and friends. Children will listen to stories from different religions that tell people how to behave towards others. They will consider what is special about where they live and their family and they will compare special things that happen in different families.</p>
<p style="text-align: center;">In Science</p> <p>As Scientists we will be identifying and naming a variety of common animals. Children will compare and describe the structure of animals, naming the different body parts and grouping animals. Children will also research what animal's eat, learning about herbivores, carnivores and omnivores.</p>	<p style="text-align: center;">In Geography</p> <p>As Geographers we will be recognising landmarks and basic human physical features. We will create a simple map and use and construct basic symbols in a key. Children will use simple fieldwork and observational skills to study the geography of our school and the local area.</p>	<p style="text-align: center;">In Computing</p> <p>As computer technicians we will be introduced to data and information. They will learn the concept of labelling and grouping objects based on their properties. Children will develop their understanding that objects can be given labels and they will begin to improve their ability to use dragging and dropping skills on a device.</p>
